

STATE OF ALABAMA DEPARTMENT OF  
**PUBLIC HEALTH**

**Childhood Cancer 30-SEC PSA**  
**September 2017**

This is Acting State Health Officer, Doctor Scott Harris.  
Childhood cancer symptoms can be similar to common illnesses and injuries, such as: an usual lump or swelling, paleness and loss of energy, bruising easily, ongoing pain in one area of the body, limping, fever or illness that doesn't go away, frequent headaches - often with vomiting, sudden vision changes and sudden weight loss.

If your child has any of these symptoms, see a doctor so that the cause can be found and treated, if needed.
